

Dear St. Petersburg City Theatre Community,

As our city, nation and world work to determine the appropriate courses of action for everyone's health and safety, the health and safety of our audiences, volunteers, and actors are of utmost importance to St. Petersburg City Theatre (SPCT). We are monitoring the information related to COVID-19 and working to secure the well-being of everyone that enters our theatre.

As we closely monitor the developments, all current performances are moving forward. We are utilizing the guidance provided by the [World Health Organization](#), the [Centers for Disease Control and Prevention](#) (CDC), and [local](#) & [state health](#) organizations.

As we are in the midst of Rock of Ages performances and rehearsals for Sunshine City, SPCT is taking the following precautions:

- Increasing the frequency and sanitization standards of all spaces and surfaces and repeating cleaning protocols between each performance and rehearsal.
- Concessions are only individual closed packaged items and staff and volunteers are following the hand-washing and sanitization guidelines provided.
- Signs regarding proper hygiene practices have been placed in all restrooms of the theater and concessions.
- Recycling bins will be available to dispose of your used show program should you not want to keep it. SPCT will not redistribute recycled programs.
- All seats and armrests are being disinfected before and after every performance.
- While our theatre capacity is 251, we will limit our ticket sales to provide ample space between patrons.

- All staff, volunteers and audience members are being asked to take recommended precautions, including hand washing, covering coughs and sneezes, and staying home if you are ill.
- A special ticket exchange policy: Fees will be waived for anyone wishing to exchange their ticket to a later performance. For exchanges, contact (727) 866-1973 or office@SPCityTheatre.org.

We will continue to closely monitor this evolving situation and our team will continue to follow CDC health and safety recommendations. We will provide updates via email, our website and social media with any changes to our programming schedule or policies. Thank you for your continued support!
